Founded in 1980 by Mr. Ashok Kumar Pasari, the Pasari Group has been shaping Kolkata's skyline for over four decades with a legacy of trust, innovation, and excellence. Headquartered in Kolkata, the Group follows a pioneering 360-degree approach — spanning architecture, engineering, and construction — to deliver landmark developments that redefine urban living.

From early milestones like *Mansarovar on Camac Street* and *Regent, Indraprastha Complex* to more recent projects such as *The Empire*, *Roopkatha*, *Taalchaya* and *Chitrakatha*, the Group's portfolio reflects a commitment to design innovation, sustainability and superior living experiences. A landmark achievement, *Biowonder* — Eastern India's first biophilic and Environment Positive (E+) corporate park — has set new benchmarks in sustainable development and workplace well-being.

At its core, the Group believes in creating spaces that enhance life — not only through aesthetics and amenities, but by fostering environments that truly resonate with the people who inhabit them. With a forward-looking vision, the Pasari Group continues to expand across Kolkata, setting new benchmarks in urban living while upholding its founding values of integrity, innovation and excellence.

Carrying the trusted legacy of the Reliable Group, Deepam steps forward with a renewed vision to create meaningful homes for today's families. The company blends experience with fresh thinking to offer homes that go beyond just walls and floors — homes that hold emotions, memories and the promise of a better tomorrow. Every project is shaped with care and driven by transparency, quality and enduring relationships — perfectly in line with the company's promise of always being rooted, reliable and remarkable.

Deepam's portfolio includes notable addresses like *Levelz* and *Park Imperial*, along with ongoing projects such as *Chitrakatha* and *Renaissance*. Each one stands as a testament to Deepam's reliable delivery, thoughtful development and commitment to long-term value.

At Deepam, it's not just about building homes — it's about crafting sanctuaries of comfort, pride and peace of mind. Homes that illuminate the journey of life.
